

FOREX

**WELCOME TO THE WORLD'S LARGEST
FINANCIAL MARKET !!**

The global foreign exchange market ('FX', 'Forex' or 'FOREX') is the largest market in the world as measured by the daily turnover with more than US\$ 5 Trillion a day eclipsing the combined turnover of the world's stock and bond markets.

WHAT IS FOREX?

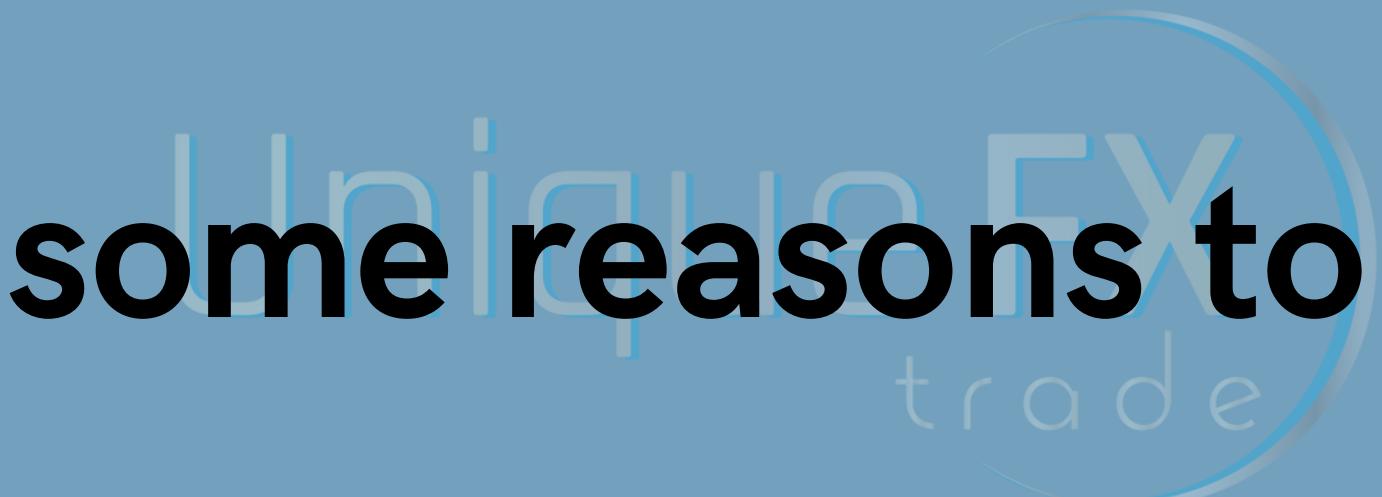

Forex (in simple terms, currency) is also called foreign exchange, FX or currency trading. It is a decentralized global market where all the world's currencies trade with each other. It is the largest liquid market in the world.

WHY FOREX?

The logo for Unique FX trade features the word "Unique" in a light blue sans-serif font, followed by "FX" in a larger, bold blue font with a diagonal line through it, and "trade" in a smaller light blue font below it, all contained within a circular border.

Many reasons lead to trade Forex giving different reasons for different people. Primarily, making money is the most frequently cited reason for why trade Forex...

Here are some reasons to why Forex...

Forex market never sleeps

The Forex market works 24 hours and 5 -1 /2 days a week. Because governments, cooperates and private individuals who require currency exchange services are spread around the world, so trading on the Forex market never stops.

Long or Short

A trader in Forex can trade with ways. It means a forex trader can play the market and make profits irrespective of whether market is going up, down or is in tight range. So irrespective of the event that has triggered the movement - forex traders do not care.

Low transaction cost

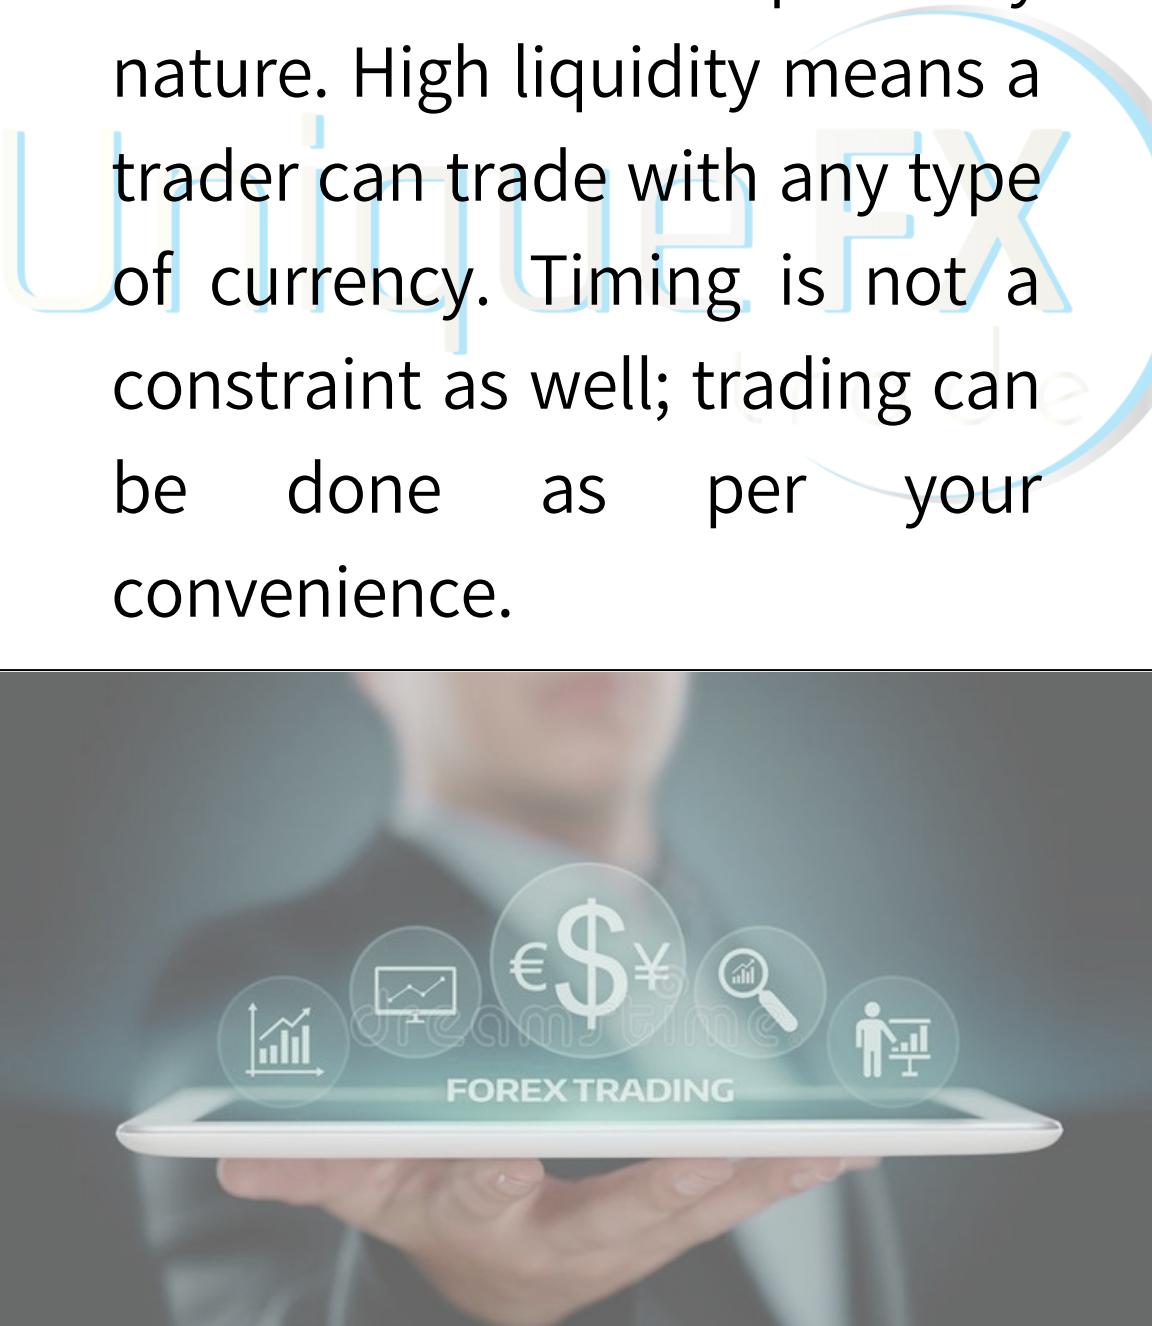

Most forex accounts trade with little or no commission and there is no exchange or data license fees. Generally, the retail transaction fee (the bid / ask spread) is typically less than 0.1% under normal market conditions. With larger dealers (where volumes are huge), the spread could be as low as 0.05%. Leverage plays a crucial role here.

Leverage

Leverage is the mechanism by which a trader can take position much larger than the initial investment. Leverage is one more reason why you should trade in Forex. Few currency traders realize the advantage of financial leverage available to them. Leverage usually helps trader with smaller investments trade larger volume if the person is well versed with the game.

High Liquidity

The size of Forex market is enormous and liquid by nature. High liquidity means a trader can trade with any type of currency. Timing is not a constraint as well; trading can be done as per your convenience.

Accessibility

Getting started as a currency trader would not ton of money especially when compared to trading stocks, option or future market. There are online forex brokers offering "mini" or "micro" trading accounts that let you open a trading account with a minimum account deposit of \$100. This allows an average individual with very less trading capital to open a forex trading account.

WHO TRADES FOREX?

The forex market is enormous in size and is the largest market with millions of participants. Hundreds of thousands of individuals, money exchanges, banks to hedge fund managers, everybody participates in the forex market.

WHEN CAN YOU TRADE FOREX?

Forex market is open 24 hours a day and 5 days a week. However, it doesn't mean it is always active. Let us check what a 24-hour day in the Forex world looks like.

The forex market is divided into four major trading sessions:

- The Sydney Session
- The Tokyo Session
- The London Session
- The New York Session

INDEX TRADING & INDICES

What are Indices?

Indices are a collection of Stocks and Instruments used to track the growth or trajectory of an industry or sector. These whole-sector tools allow us to look at how a chunk of the market is performing to better understand investment opportunities along with market fluctuations.

The S&P 500 (USA), DAX 30 (Germany), FTSE 100 (UK), Dow Jones 30 (USA) and NASDAQ 100 (USA) are a collective of each country's largest based on their market capitalization.

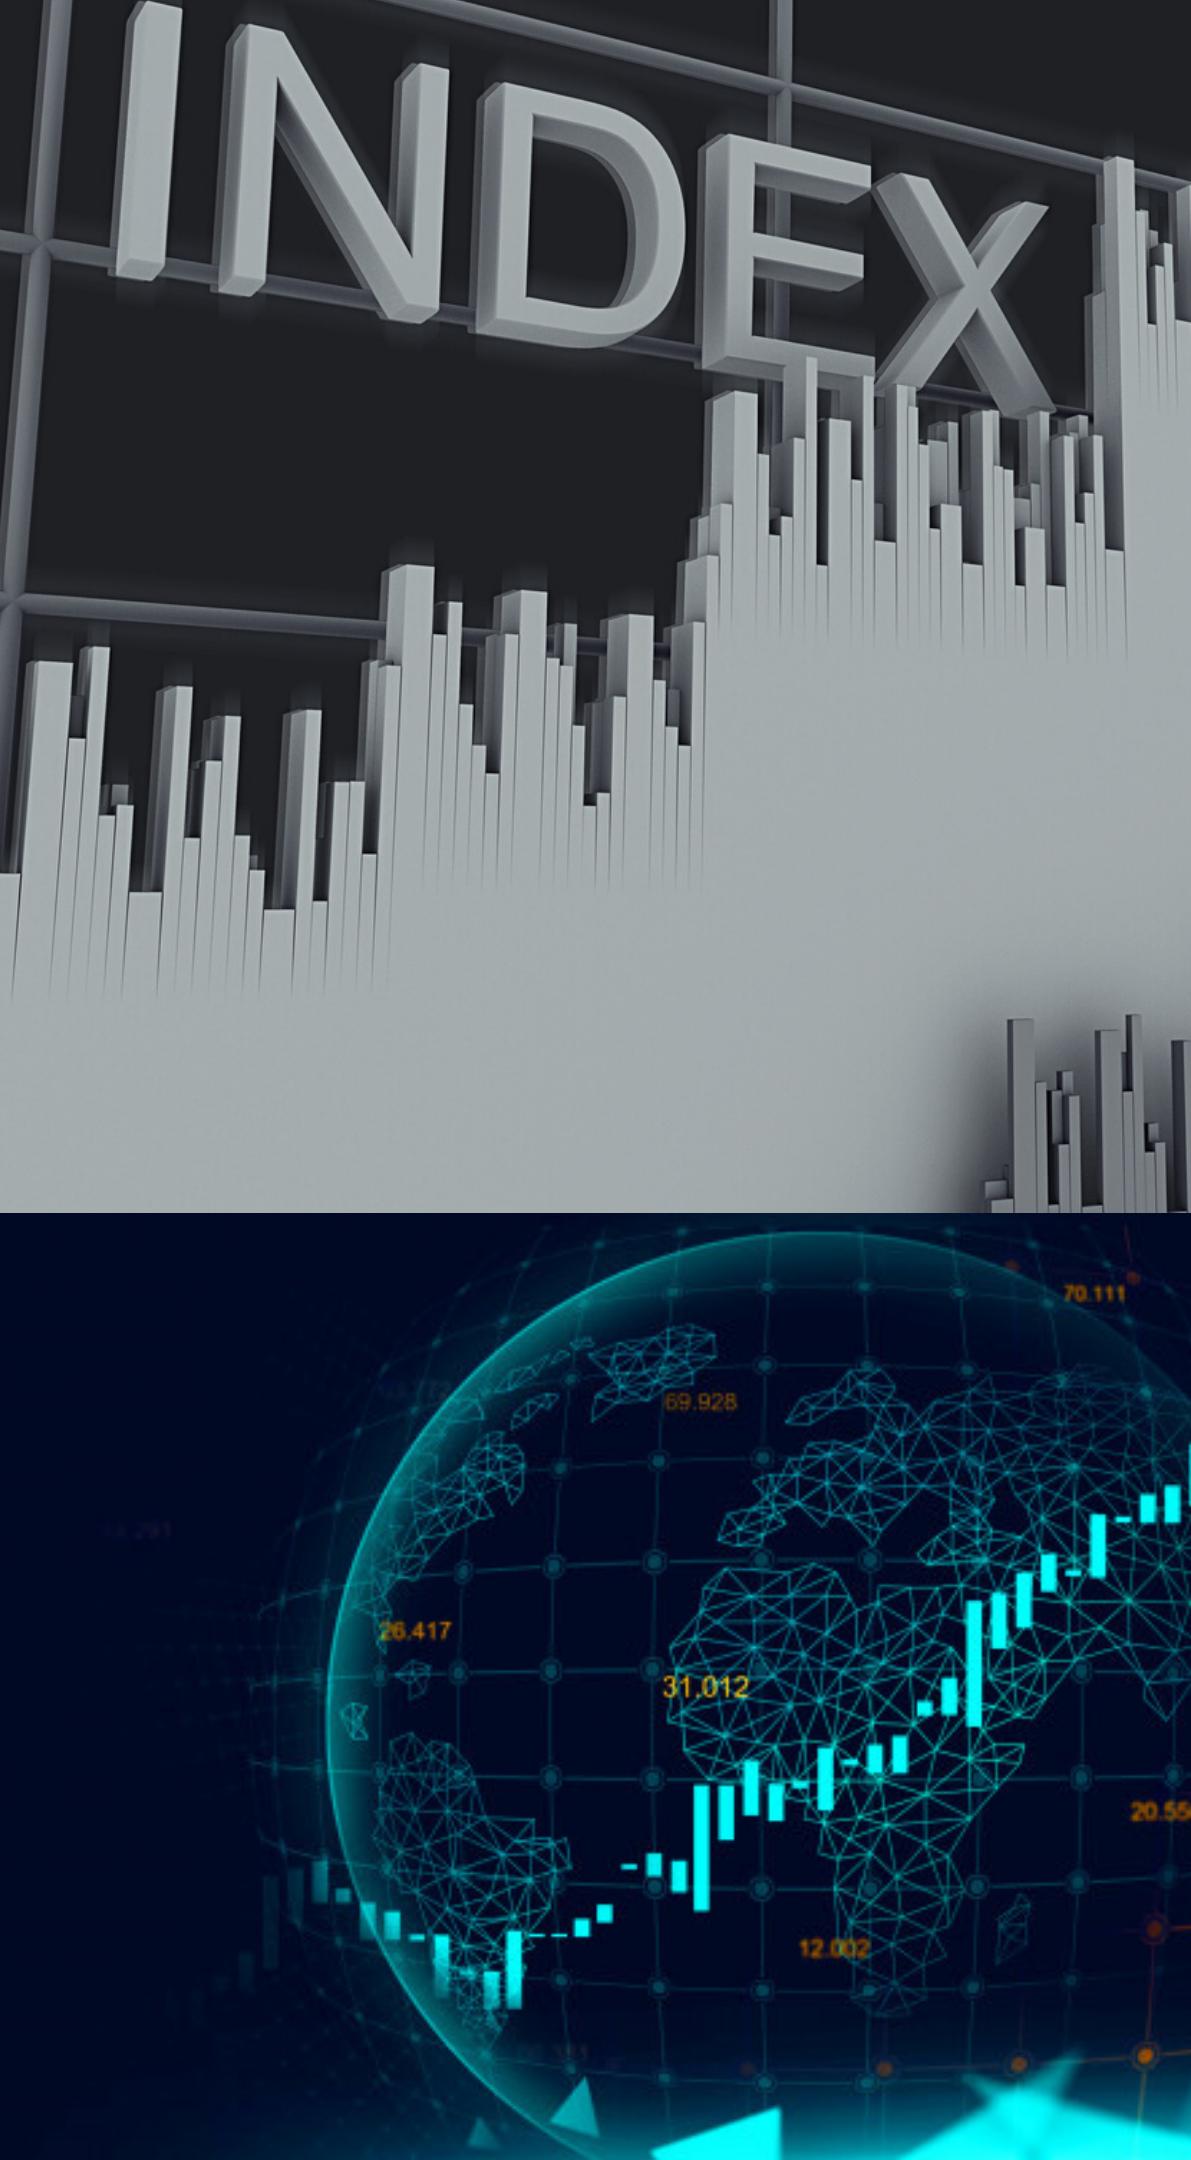

INDEX TRADING

2 of the mostly widely trading and used known indices in the world is Dow Jones 30 and Nasdaq 100.

Our trade happens in the same specifically on

- Nasdaq-100 (US Tech100) - INDEXNASDAQ : NDX
- Dow Jones-30 (US 30) - INDEXDJI : DJI

WHY NASDAQ-100?

Nasdaq-100 is a stock market index made of over 102 equity securities issued by about 100 largest non-financial companies (listed on Nasdaq Stock market).

In todays market u can find many companies choosing to be listed in Nasdaq for their IPO; their trade in Nasdaq making in-turn more growth oriented.

NASDAQ-100 Index also know as US Tech 100, is important as it plays a large role in the local and global economy eventually effecting the FX market

WHAT COMPANIES ARE IN NASDAQ 100?

The Nasdaq 100 is made up of some of the world largest and well known companies.

The Top 10 listed in 2021 are:
